

Dietary Restrictions Form

Falley Scout Reservation wants to ensure that each Scout gets nutritious meals that meet or exceed all expectations of our dining program. In order to meet the needs of participants who have special dietary requirements due to allergies, food intolerances, health issues, and religious dietary requirements, it is necessary to obtain as much information as possible prior to arrival at camp. Please be as specific regarding exact nature and severity of any allergy or intolerance. While FSR attempts to provide meals which meet these special needs as much as possible, it is still the responsibility of the individual to avoid those foods which they are unable to eat. In some rare cases, it may be necessary for the camper to bring some food items, which can then be prepared by the Kitchen staff.

Please fill out the information below:
